#### **DETAILED ACTION**

Page 2

The applicant's response filed 3/21/05 to the Office action has been entered. Claims 1-17 and 19-40 are pending.

- 1. The rejection of claims 1-17 and 19-40 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-17 of U.S. Patent No. 6,340,747 is withdrawn.
- 2. The rejection of claims 1-6, 8-17, 19, 20-26, and 28-40 under 35 U.S.C. 102(b) as being anticipated by Lehn et al. (5,457,185, issued Oct. 10, 1995) or Lehn et al. (5534622, issued Jul. 9, 1996) is withdrawn.

### NEW GROUNDS REJECTION NECESSITATED BY THE AMENDMENT

## Claim Rejections - 35 USC § 112

- 3. The following is a quotation of the first paragraph of 35 U.S.C. 112:
  - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 4. Claims 41- 46 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Since the newly added limitations in claims 41-46 has no support in the specification, it constitutes new matter.
- 5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1637

Ď,

6. Claims 41-46 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. Claims 41-46 are vague and indefinite because of the phrase "the biological molecule is not a nucleic acid", "the biological molecule is not an oligonucleotide" and "the oligonucleotide and biological molecule are different". It is unclear what the phrases are presenting. Clarification is required.

#### Summary

- Claims 1-17 and 19-40 are allowed.Claims 41-46 are not allowable.
- 8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
